DR. NIHARIKA PRAHLADI
ASSISTANT PROFESSOR
DEPARTMENT OF OBSTETRICS & GYNAECOLOGY
ASSOCIATE EDITOR HOMOEOSHREE

It is my pleasure to announce the publication of 79th Edition of Homoeo-Shree.

I am very thankful to college officials for giving me the chance to work as an associate editor of Homoeo-Shree. I would like to pay my sincere thanks to our Principal Dr. R. S. Agrawal for providing this platform.

I would like to thank all the people who have contributed their part in this edition.

In this edition, special attention is given to 'IMPORTANCE OF PATHOLOGICAL RUBRICS IN CASE TAKING IN VIEW OF HOMOEOPATHIC REPERTORY'.

I hope this edition of Homoeo-Shree will be helpful to all students & Practitioners. Enjoy Reading.

Dr. NIHARIKA PRAHLADI
Assistant Professor
Department of Obstetrics & Gynaecology

IMPORTANCE OF PATHOLOGICAL RUBRICS IN CASE TAKING IN VIEW OF HOMOEOPATHIC REPERTORY

Many stalwarts contributed different pathological rubrics in different repertoires. Such as :-

- A. Boericke's repertory.
- B. Boger Boenninghausen's characteristics & repertory.
- C. Clark's repertory.

A. Pathological rubrics in Boericke's repertory.

- 1.BRAIN, ABSCESS ,(HEAD)- Pg-617
- 2.SCLEROSIS, (HEAD)-Pg-617
- 3.Bright's disease ,(HEAD)-Pg-618
- 4.Malaria, (HEAD) - Pg- 618
- 5.Gastro-intestinal derangements , (HEAD)-Pg- 624
6. Polyuria, (HEAD)-Pg-625
- 7.Hydrocephalus (acute and chronic),(HEAD)-Pg-628
- 8.Plica polonica,(HEAD)-Pg-629
- 9.Ring worm/tinea capitis, (HEAD)-Pg-629
- 10.Meniere's disease,(HEAD)-Pg-632
- 11.Cataract,(EYES)-Pg-635
- 12.Glaucoma ,(EYES)-Pg-640
- 13.Selerotica ,(EYES)-Pg-646
- 14.Amblyopia/blurred vision,(EYES)-Pg-646
- 15.Angioma,(EYES)-Pg-605
- 16.Rigg's disease,(TEETH)-Pg-681
- 17.Diphtheria,(THROAT)-Pg-684
- 18.Dysphagia,(THROAT)-Pg-685
- 19.Hypertrophy,(THROAT)-pg-960
- 20.Cancer,(STOMACH)-pg-695
- 21.Appendicitis,(ABDOMEN)-Pg-709
- 22.Duodenitis,(ABDOMEN)-Pg-727
- 23.Dysentry,(ABDOMEN)-Pg-727
- 24.Cholelithiasis,(ABDOMEN)-Pg-728
- 25.Haemorrhoids,(ABDOMEN)-Pg-728
- 26.Jaundice/icterus,(ABDOMEN)-Pg-730
- 27.Hernia,(ABDOMEN)-Pg-730
- 28.Peritonitis,(ABDOMEN)-Pg-732
- 29.Appendicitis/ typhilitis,(ABDOMEN)-Pg-733
- 30.Calculi/Nephrolithiasis,(Urinary system)-pg-736
- 31.Chronic Parenchymatous Nephritis,(Urinary system)-Pg-738
- 32.Bubo/chancroid,(Male sexual system)-Pg-749
- 33.Spermatorrhoea,(Male sexual system)-pg-754
- 34.Ovaries/Abscess,(Female sexual system)-Pg-771
- 35.Hamorrhage-fibroids,(Female sexual system)-Pg-780

- 36.Hydrometra,(Female sexual system)-Pg-781
- 37.Physometra,(Female sexual system)-Pg-783
- 38.Bronchial Asthma,(Respiratory system)-Pg-786
- 39.Bronchiectasis,(Respiratory system)-Pg-788
- 40.Pleurisy,(Respiratory system)-Pg-805
- 41.Angina pectoris,(Respiratory system)-Pg-809
- 42.Myocarditis,(Respiratory system)-Pg-811
- 43.Pericarditis,(Respiratory system)-pg-811
- 44.Rheumatic Fever,(Respiratory system)-Pg-838
- 45.Chorea/St. vitus dance,(Nervous system)-Pg-851
- 46.Morvan's Disease,(Nervous system)-Pg-854
- 47.Rubeola/Measles,(Fever)-Pg-870
- 48.Gangrene,(Skin)-Pg-884
- 49.Addison's Disease,(Generalities)-Pg-895
- 50.Hodgkins Disease ,(Generalities)-Pg-906

B. Pathological rubrics in boger boenninghausen's repertory.

- 1.Anaemia ,(Sensation &complaints in general)-P-882
- 2.Apoplexy,(Sensation &complaints in general)-P-882
- 3.Atrophy,(Sensation &Complaints in general)-P-889
- 4.Clorosis,(Sensation & Complaints in general)-P-889
- 5.Syphilis,(Head internal)-P-290
- 6.Exostoses,(Head external)-P-310
- 7.Blenorrhoea,(Eyes)-P-310
- 8.Herpes ,(Face)-P-397
- 9.Lichen ,(Face)-P-397
- 10.Gangrene ,(Mouth)-P-443
- 11.Dipheria,(Mouth)-P-451
- 12.Diarrhoea,(Abdomen)-P-451
- 13.Tuberculosis,(Abdomen)-P-558
- 14.Hernia,(External Abdomen)-P-570
- 15.Dysentric,(Stool)-P-586
- 16.Intussusception,(Stool)-P-605
- 17.Fistula,(Anus & Rectum)-P-611
- 18.Hydronephrosis,(Urinary organs)-P-638
- 19.Gangrene,(Urinary organs)-P-640
- 20.Abscess,(Urinary organs)-P-641
- 21.Chancre ,(Male Genitalia /Glans)-P-649
- 22.Atrophy,(Male Genitalia/Testes)-P-653
- 23.Myoma,(Genitalia/Female organs)-P-662
- 24.Asthma,(Respiration)-P-690
- 25.Polypliod,(cough/Expectoration)-P-730
- 26.Phthisis,(Larynx & Trachea)-P-736
- 27.Pleurisy,(Chest-inner)-P-758
- 28.Angina Pectoris,(Chest-Heart &Region of)-P-773
- 29.Typhoid Fever,(Fever Pathological types)-P-1005
- 30.Gonorrhoeal-Discharge,(Urinary organs)-P-642

C. Pathological rubrics in clarke's repertory.

'IT IS ARRANGED IN ALPHABETICAL ORDER WHICH

STARTS WITH A TO Z.

- 1.Abscess -P- 7.
- 2.Acetonaemia-P- 8.(ketone bodies in blood)
- 3.Acromegaly-P- 8.
- 4.Albuminuria-P-8.
- 5.Amauosis-P-9.(blindness without visible change in eye)
- 6.Anaemia-P-9.
- 7.Aneurism-P-10.
- 8.Angina faicum-P- 10.(sore throat).
- 9.Anidrosis-P-10.(inability to sweat).
- 10.Anus-fissure of-P-11.
- 11.Anus-fissure herpes of-P-11.
- 12.Apoplexy-P-12.
- 13.Appendicitis-P-12.
- 14.Ardor urinae-P-12.(scalding sensation during urination)
- 15.Asthenopia-P-13.(eye strain)
- 16.Barber's itch-P-15.(tinea barbae)
- 17.Bazin's disease-P-15.(erythema induratum)
- 18.Borborygmi-P-17.(gurgling noise in intestine)
- 19.Bronchorrhoea-P-20.
- 20.Callosities-P-21.
- 21.Camp fever-P-21.(epidemic typhus)
- 22.Catheter's fever-P-23.
- 23.Coccygodynia-P-26.
- 24.Crusta lactea-P-31.
- 25.Dumb ague-P-36.(malarial fever)
- 26.Dupuytren's contraction-P-36(palmer fibromatosis)

- 27.Favus-P-46(contagious skin disease)
- 28.Fester-P-47(suppuration)
- 29.Gastro-entritis-P-50.
- 30.German measles-P-50.
- 31.Gout-P-52.
- 32.Gravel-P-53(crystals formed in urinary tract)
- 33.Haematocele-P-54(blood collecting in body cavity)
- 34.Heat spot-P-58(blocked sweat duct formed blister)
- 35.Hodgkin's disease-P-61(ca of immune system)
- 36.Hordeolum-P-61(stye)
- 37.Hypopion-P-62(inflammatory cells in ant. chamber of eye).
- 38.Landry's paralysis-P-69(polyneuritis)
- 39.Milk fever-P-78(insufficient calcium cause metabolic disorder).
- 40.Morphoea-P-79.(painless discolored patches on your skin)
- 41.Tic convulsif-P-118.(hemifacial spasm).

There are many more repertories which contains pathological rubrics these are some examples from different repertories.

According to case taking which kind of symptoms patient giving to physician is important . If physician dealing with pathological symptoms so there are many repertories by which we can go through the pathological rubrics . so rubrics are the important part of repertory by which physician can go for simillimum medicines.

DR. SHAHJAHAN BEGUM
Assistant Professor
Department of surgery.

HOMOEOPATHIC APPROACH FOR ALLERGY

ABSTRACT- Allergic diseases are a common and increasing cause of illness, they comprise a range of disorders from mild to life threatening, and affect many organs. Homoeopathy plays an important role in the treatment and prevention of allergy, whereas the other mode of

to understand. It may differ person to person in its action.

Allergy is a state of hypersensitivity to one or more allergens. A damaging immune response by the body to substance, especially a particular food, pollen, fur, or dust to which it has become hypersensitive.

LITERATURE STUDY-

Immunity- immunity play an important role in case of hypersensitivity and allergy. the word immunity is synonymous with resistance meaning protection from particular disease or injuries, whereas the term hypersensitivity is interchangeable with allergy meaning a state of exaggerated or altered immune response to a given agent. The disease of the immune system are broadly classified into the following four groups-

1)Immunodeficiency disorders- characterised by deficient cellular and/or humoral immune function. This group is comprised by a list of primary and secondary immunodeficiency diseases including the dreaded acquired immunodeficiency syndrome(AIDS).

treatment are unable to give permanent cure of allergic patient. Our homoeopathy not only cure, but prevent as well as minimizing the recurrence of allergy. Whereas the other pathy fails to do this, they only gives temporary relief of the disease. These diseases are usually psoric origin and they are dynamic diseases, and our homoeopathic medicine are dynamic in nature. Dynamic homoeopathic remedy acts immune system to regulised its response.

INTRODUCTION- To define "Allergy", or even to understand the word meaning is not so easy since the involvement of the spear is much wider even to explain or

2) Hypersensitivity reactions- characterised by hyperfunction of the immune system and cover the various mechanism of immunologic tissue injury.

3) Autoimmune disease- occur when the immune system fails to recognize "self" from "non-self". A growing number of autoimmune and collagen diseases are included in this group.

4) Possible immune disorders- immunologic mechanisms are suspected in their etiopathogenesis.

The basic reasons of allergy are still an unknown factor and we may recognize the allergy only by symptoms, food, allergy, suppressed due to medical reaction, skin allergy. allergy due to climatic change are the some recognized categories.

SITES OF AFFECTION- The allergy may take place to affect any part of the body like brain, nervous system, nose, eye, ear, chest and stomach/abdomen, skin.

"However to understand the term allergy in the medical science is different. Any substance which may disagree to the body if applied and leads to underivable harmless reaction to the person may be termed as allergy". The cause of reaction may differ from person to person.

PATOLOGY OF ALLERGY- The tendency to produce an exaggerated IgE immune response to otherwise harmless environmental substances, while an allergic diseases can be defined as the clinical manifestation of this inappropriate IgE immune response.

The immune system does not make detectable response to the many environmental substances to which it is exposed daily. In an allergic reaction, initial exposure to an otherwise harmless exogenous substance(known as allergen) triggers the production of specific IgE antibodies by activated Bcell.

These IgE antibodies bind to the surface to mast cell via high-affinity IgE receptors, a step that is not itself associated with clinical sequels, upon re-exposure, the allergen binds to membrane-bound IgE which activates the mast cell, releasing a variety of mediators. This type I hypersensitivity reaction is the basis of the symptoms of allergic reactions, which range from sneezing and rhinorrhoea to anaphylaxis.

SUSCEPTIBILITY TO ALLERGIC DISEASES- A number of factors predispose to allergic diseases, the strongest of which is a family history. A wide array of genetic determinants of disease susceptibility have been identified, including genes controlling innate immune responses, cytokine production, IgE levels and the ability to the epithelial barrier to protect against environmental agents. Contributory environmental factors include bacterial and viral infection, pollutants and cigarette smoke.

ROLE OF MIASM- Allergic diseases are considered as chronic diseases. The causes of all chronic diseases are miasms. The psora is the root cause or primary cause of all disease conditions.

MANAGEMENT- The primary objective of homoeopathic treatment is to consider the primary symptoms of patient which is a morbid process expressing in the form of general symptoms. Homoeopathy considered patient with his mental and physical aspect which gets affected primarily as morbid vital process. Homoeopathy is a science of vital dynamics.

The morbid vital process ultimates in the pathology the primary symptoms which represent the individual in the form of mental symptoms and physical general symptoms form the basis of prescription.

SELECTION OF MEDICINE- When the patient is hypersensitive and allergic, we must avoid or use of the C.M. and other high potencies, which will make our patient sick and may causes unwanted aggravation, instead of very high use Hahnemann dilution method in decimal or 50 millesimal.

POTENCY- medium potency(to avoid sever form of aggravation).

HOMOEOPATHIC REMEDIES FOR ALLERGY-

1) ALLIUM CEPA, EUPHRASIA, SABADILLA-
Hay fever, running nose.

2) ARSENIC ALB & ARSENIC IOD, ANTIMONIUM TART- Bronchitis/Asthma.

3) SABADILLA, EUPHRASIA-Watering of eyes, Burning and itching of eyes and sneezing.

4) RHUS TOX, ANTIMONIUM CRUDE, ANTIMONIUM TART, GRAPHITES, PETROLEUM-For skin disease such as nettle- rash, eczema measles, cracks on the palms, sole, etc.

CHRONIC DISEASE- Treatment chronic disease condition caused by chronic miasm so the treatment antimiasmatic or constitutional medicine.

CONCLUSION- Thus the scope of homoeopathy stands very high in the treatment of allergy and far superior than treatment with Modern medicine, it cures the patient.

ABDOMINAL BLOATING AND HOMOEOPATHY

Bloating and gas are most commonly caused due to indigestion as well as excessive accumulation of gas in the abdomen region. This can lead to a feeling of tightness and swelling, along with debilitating pain and discomfort, in some extreme cases. The other causes for bloating and gas may include wheat or gluten allergy, irritable bowel syndrome, food that gives rise to flatulence, lactose intolerance as well as severe conditions like acid reflux.

Bloated abdomen refers to a feeling of fullness, tightness and distension of abdomen. There is also an excessive accumulation of gas in abdomen. Bloated abdomen can be painful, with cramping as well.

The main causes behind bloated abdomen are constipation, Irritable Bowel Syndrome, wheat allergy, taking flatulent (gas-forming) food, overeating, food intolerance like lactose intolerance, and acid reflux (Dyspepsia).

Over-the-counter instant gas-relieving pills and tonics can only provide very temporary relief, the causative agents remain firmly in place. Homeopathic medicines can completely cure bloatedness or bloated abdomen. Made from natural substances and free from any side effects, Homeopathic remedies for bloated abdomen can provide complete recovery by striking at the root of the problem, while ensuring there is no recurrence.

Homeopathic Treatment for Bloating and Gas-

Homeopathic medicines are very efficient in treating bloated abdomen. Sourced from natural substances, Homeopathic remedies are very beneficial in treating cases of bloatedness. Homeopathy provides complete recovery from bloatedness. The Homeopathic treatment for bloated abdomen is also of great help in releasing the wind from abdomen, thereby providing relief to the patient. The pain in the abdomen, burning and other associated symptoms also disappear with the use of natural Homeopathic medicines. Here is a list of some medicines that your homeopath might use to treat gas and bloating-

Graphites: This is one of the most commonly used and

most efficient elements in Homeopathy. Graphites can help in treat abdomen bloating, which is accompanied by constipation on a prolonged basis. When this gas gets obstructed, instead of being allowed to see itself out of the body, the gas gets accumulated and causes a lot of discomfort and pain within the abdomen. Also, when there is an offensive odour in the gas that manages to pass through, one can use this medication.

Carbo Veg: This is one of the best homeopathic ways of resolving bloating and gas. This medicine is most commonly prescribed when there is belching along with the gas accumulation and bloating. The wind that accumulates in the abdomen may also give rise to breathing difficulties for many patients, in which case such a medicine is known to work wonders.

Abies Can: This is a natural Homeopathic cure for painful bloating which also comes with

heart palpitations. In such cases, the doctor may prescribe this medicine to fight the gas that is busy burning in the abdomen. Other symptoms treated by this medicine include a sudden spike in the appetite as well.

Magnesium Phos: This medicine can help in treating gas and bloating that becomes colicky and gives rise to a lot of unbearable pain eventually. Also, it can be used for treating a feeling of fullness in the stomach due to the accumulation of gas. Further, the other symptoms treated by this medication include belching and hiccups.

Raphanus Sativus : When the gas obstructs the normal digestive process of the abdomen. This medicine can also be prescribed for successful treatment. It can also be used when the abdomen becomes hard due to the gas, which does not escape as flatulence or even as burps.

China: This is a Homeopathic medicine that can help in relieving symptoms like fullness, tightness, pain and even heaviness in the abdomen. It helps the patient in passing better motions so that the symptoms may be eliminated.

Homeopathy is an age old medical science that seeks to treat these and many other kinds of ailments with the help of its natural medication. However, in order to get the right treatment, it's important to visit the doctor and allow him to examine you properly and prescribe the right medicines. The better the doctor understands your condition and symptoms, the better treatment he can offer.

DEEKSHA KUSHWAHA
Intern

different program

- More information in one package

Computer repertory is a useful electronic device which facilitates the process of locating rubric and finding final indicated medicine or a group of medicine in no time. It's utility depends on program

History -

- International Business Machine' was the first to introduce computer in commercial line in 1960
- Dr. R. P. Patel developed mechanical computer in 1972 and named it as 'Auto Visual Homeopathic Repertory' that is more simple and cheap
- 1979, First computerized programs - Le Repertarise De Kent 'Melanie' - Docteur Georges Brous

Role of computers in Homoeopathy

- It has been described by Dr Dilip Dikshit, author of organon 96
- They are mentioned below - Information storage and retrieval, Expert system, Computer assistant instruction, System with artificial intelligence

Computer programmes in the field of Homoeopathy -

An attempt has been made to describe few homeopathic repertorization software programming which are available to the profession today

- **RADAR (Archibel, Belgium1993)**
- **Polychresta (Dolphin Cybernetics company, 1994)**
- **CARA/ISIS (Miccant,UK 1988)**
- **AKIVA (Miccant)**
- **Homopath (Dr. Jawahar shah, 1984)**
- **The Samuel (The Co- operation association, Holland)**
- **Mac (David Warkentin)**
- **Micropath (Micro therapeutics Ltd. England)**
- **Organon 96 (Dr. Dilip B. Dikshit,1970)**
- **Homoeorep (Dr.Robert, France)**
- **Kentian (Dr. R.P.Patel & G.I.Patel)**
- **The Profile (D.J. Vidlard)**

RADAR (RAPID AID TO DRUG AIMED RESEARCH)

COMPUTER REPERTORY

- Best programmes for window
- It gives option of using the entire source repertory made till date
- This is the only system having complete repertory and system repertory in one platform

Version- 1. Radar Opus Lite 2. Radar Opus Medium 3. Radar Opus Pro

• RADAR Software -

1. **RADAR 9.1 and RADAR 10.5 - Repertorization**
2. **Encyclopedia Homoeopathica - largest multilingual homoeopathica Reference Library, currently in 7 languages**
3. **Win Chip (Window Computerized homoeopathic information & Research Program)-Patients Management Program**

- **RADAR Opus 3.3 - latest Version, launched in 31 Jan 24**

CARA (Computer Assisted Repertorial Analysis) / ISIS (Inspirational software)

- Contain 65 books with 15 optional repertories (standard & modern) & Audio materia medica of 100 remedies
- Helps users to add new rubrics & one can create ones own repertory
- More than 20,000 pages of homoeopathic literature

Version- 1. CARA Lite 2. CARA Standard 3. CARA Professional (Pro)

HOMPATH

- Develop in India, 1986 - professional use
- Translation of rubrics in 20 different languages apart from about 15 Indian languages

Version- 1. Hompath classical version 7.0 (250 book with complete repertory)

2. Hompath classical version 8.0 (Premium Collection) - India's no.1 software, contains homoeopathic books (300), Set of 6 cds & 11 modules, Repertories, Journals, Cases, Research papers, Articles (5000),

3. Hompath ozone 4. Hompath Vital 5. Hompath Win 6. Hompath St 7. Hompath MD

8. Hompath LAN version- useful in homoeopathic colleges as a teaching aid extraordinaire

9. TheDoctor24x7 - most advance & latest online software

- Your Online Clinic will be global & open for 24 hrs 7 days a week & 365 days a year

JAYSHREE PARMAR
BHMS-II Prof.

A core temperature is less than 40°C accompanied by CNS dysfunction in patients with environment heat exposure. This condition represents a failure of the body ability to maintain thermoregulatory homeostasis.

Cause

Heat stroke can occur if body temperature rises to 104°F (40°C) or higher.

Classification

1. Classic heat stroke: More common in younger children who are unable to escape from hot environment and those with underlying chronic medical condition that impair thermoregulation.
2. Exertional heat stroke: generally occurs in healthy individuals who engage in heavy exercise during periods of high temperature and humidity. Typical patients are athletes and military recruits in basic training.

Risk-

- Elderly
- Children
- Military
- outdoor workers (construction, roofers, migrant work)

Clinical features:-

First stage - Heat camps are the initial sign of heat illness. Cramps and spasms will occur due to dehydration or an electrolyte imbalance.

	Heatstroke	Heat exhaustion
CNS status	Abnormal mental status (e.g. obtunded, coma, delirium, hallucinations, seizures, ataxia, and slurred speech)	Normal mental status, dizziness, or mild confusion that rapidly normalizes within 30 minutes of treatment
Airway and breathing	May be compromised due to altered mental status, tachypneic	Clear airway, may be tachypneic
Circulation	Tachycardia with hypotension, moderate to severe dehydration	Tachycardia with normal blood pressure, mild-to-moderate dehydration
Skin findings	Dry skin (classic heatstroke) or sweating (exertional heatstroke)	Sweating
Other clinical features	<ul style="list-style-type: none"> • Vomiting • Diarrhea • Clinical and laboratory findings of DIC, rhabdomyolysis, acute renal failure, cardiogenic shock and liver failure 	<ul style="list-style-type: none"> • Nausea • Vomiting • Headache • Fatigue and weakness • Hyponatremia or hypernatremia

HEAT STROKE

Investigation-

- Rapid blood glucose to identify by hypoglycemia.
- CBC, PT, PTT, INR and serum electrolytes.
- Urea and creatinine to identify prerenal azotemia or renal failure resulting from myoglobinuria.
- Serum (CK), ionized or total calcium, and phosphate to detect rhabdomyolysis, hypocalcemia and hyperphosphatemia.
- Toxicologic Screening for dugs of abuse of prescribed medication.
- Chest radiography: identify pulmonary oedema.
- Computed tomography: Identify the pressure in brain.

Prehospital care or treatment -

1. Cooling might have occurred prior to the arrival of the hospital.
2. Removal from the source of heat stress and rapid initiation of cooling as the risk of morbidity and mortality for patients with heat-related illness is associated with the duration of hyperthermia.
3. Patients with heat stroke should be treated with either ice water immersion or evaporative external cooling in the field.
4. Pre-hospital cooling measure should be initiated prior to or simultaneously with activation of emergency medical services.

Treatment

1. Gلوين - heat stroke
 - It exposes to Sun it cause headache
 - Sensation is throbbing, pulsating type of headache.
 - Aggravation - Sun heat or fire
2. Gelasma Sempervirens -
 - It exposes to Sun it cause headache and remittent fever.
 - It cause DULNESS DIZZINESS and DROWSINESS and muscular weakness desire for absolute rest. Thirstlessness is well marked.
 - Aggravation - sun, heat stroke.
 - Amelioration - profuse Unitarian.
3. Natrum muriaticum -
 - It expose to sun it causes mainly symptoms headache, skin disease, fever, urinary symptoms.
 - Sensation - as if a thousand little hammer are knocking on the brain.
 - Aggravation - sunrise especially 10 to 11 am.
 - Amelioration - open air, cold bathing.
4. Syphilinum -
 - Heat stroke
 - Head would be crushed with sense of weight and bursting in the vertex.
 - Aggravation - daylight.
5. Amylum nitrosum -
 - Headache occur in climate changes.
 - It feeling of constriction in the cardiac region.
 - Aggravation - mental and physical exertion.
 - Amelioration - open air.

Dr. Sandeep Sharma, HOD, Homoeopathic Pharmacy & Dr. Neelam Sharma, HOD Materia Medica along with students attended "World Homoeopathic Day" event organized by CCRH & NCH at Yashobhumi Dwarka, New Delhi on 10th April, 2024.

Visit to the state of the art Homoeopathic Medicine Manufacturing Unit, Dr. Willmar Schwabe, India Pvt. Ltd. at Noida along with students.
